Dear

STAT

FBIS greatly appreciates the outstanding work you did for its Paraguay Bureau from March 1983 to April 1988. Throughout those 5 years you demonstrated exceptional dedication, initiative, and imagination. You obviously fully understood FBIS' requirements and set about to fulfill them to the best of your considerable abilities. Although originally presented with a preselected list of sources to be monitored for phone-patching to the bureau, you did not limit your effort to this list but sought out better sources, regardless of the time. You were constantly alert to developments in your country, keeping the bureau informed in a timely manner. We are aware that you spent a considerable amount of your own time listening to new sources and recording others for backstopping purposes when FBIS Panama Bureau temporarily took over primary responsibility for Peru.

Without your efforts, FBIS could not have served its consumers so well. Were it not for improved technical reception capability at Paraguay Bureau, we would gladly continue to rely on you.

We present to you the enclosed plaque in recognition of your high degree of professional service to FBIS. We are proud to have been associated with you.

Sincerely,

R. W. Manners
Director
